Part B or Part D Coverage

Items that could be covered under your Medicare Part B or Part D are marked with a " ◩ ". When an item is covered by Part B or Part D due to your particular circumstances, you should not use your OTC benefit to obtain the item.

That's because it is Medicare covered in those circumstances, and not part of your OTC benefit. For example, gauze may be covered under Part B when it is being used as prescribed, to perform surgical wound dressing changes.

Vitamin and Mineral Supplements

These are known as the Dual-Purpose items which are marked with a " ● ". Your physician must recommend them to you for a specific diagnosed condition. Please speak with your physician before ordering these items.

- **Recommendation**: It is strongly recommended to place orders early during the month. While benefits are available until the last day of each month before midnight, waiting until the last day is not advisable since you risk losing your OTC benefits for the month.
- **Return Policy**: If you receive a damaged item, please call our OTC Department within 7 days after receiving your order. A replacement item will be shipped or delivered by a driver, in exchange for the damaged product. The new item brand might be different. No other returns or exchanges are allowed.
